

To whom it may concern,

I am a listener of XM radio and have been for quite some time. I pay to have this service provided to me and it is my right under the first ammendment to have this service and be able to listen to what I want...when I want. THIS IS WHAT I PAY FOR!!

I fully support XM radio and will continue to urge others to do the same. I pay for this service so I can get a variety of channels and broadcasts at my leisure and I greatly benefit from listening to the traffic and weather channels.

Thank you,
Linda Walters
